

Stretch your
perspective.

- Printed wall coverings, murals and ceilings
- Acoustic systems and décor
- Backlit LED solutions

Make it BRILLIANT.™

Smart. Sustainable. BRILLIANT.

ABOUT OUR WALL AND CEILING SYSTEMS.

As beautiful as they are practical, BRILLIANT™ Wall and Ceiling Systems are stretch wall and ceiling coverings that can be used to renovate, repair, or simply enhance the aesthetic of any residential or commercial space. LED lighting can be incorporated to create a diffused, backlit solution and/or unique lighting effects. BRILLIANT systems are also an ideal application for projection screens, as well as an attractive acoustic sound absorption solution.

BRILLIANT for all types of building projects:

- Commercial spaces including restaurants, hotels, nightclubs, retail stores, and offices
- Medical buildings and environments with special needs such as hospitals, laboratories, wet rooms, and swimming pools
- Sports and entertainment venues, movie theaters, and concert halls
- Residential homes, apartments, and condominiums
- Renovations and new construction

For BRILLIANT Results:

The installation process employs a proprietary profile system. It is clean, quiet, and does not require any advance prep work or removal of furniture.

Our national network of BRILLIANT Systems installers are all certified and trained in our state-of-the-art facility. **To find a certified BRILLIANT System installer near you, please contact us at info@brilliantceilings.com**

A BRILLIANT Shade of Green:

All BRILLIANT Wall and Ceiling Systems are constructed of non-flammable, non-toxic sheets of polyester that are made of 20% recycled polyester and are 100% recyclable. It is coated with a special 100% water-based PU-coating that is 90% biodegradable. Virtually maintenance free, we use only safe and environmentally friendly materials that are easy to clean and will never crack, flake, warp, fade, or peel.

Sound solutions. BRILLIANT™ acoustics.

Looking for a blend of acoustic performance and enhanced aesthetics? Seamless, stunning and sound absorbent, BRILLIANT™ Acoustic solutions are an ideal combination of innovative technology and beautiful design.

BRILLIANT™ Acoustic is a Class A sound absorbent ceiling and wall covering system made of a polyester lining (up to 5.2m wide) with a polyurethane coating (PU) and invisible micro-perforations. Our products have a Class A fire resistance rating and are laboratory-tested for maximum sound absorption and insulation.

Available in a wide variety of solid colors, patterns, and graphical treatments, they're ideal for creating intimate, closed environments that require a high level of acoustic performance.
